

VARSHITH JULAKANTI

AI/ML Engineer — Generative AI Engineer

+91 7842524222 ✉ varshithjulakanti@gmail.com 🌐 github.com/Varshith0105 🌐 [Portfolio](#)
📍 Hyderabad, Telangana, India

Summary

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with hands-on experience in Generative AI, Large Language Models (LLMs), Machine Learning, and Deep Learning. Skilled in building end-to-end AI applications using Python, PyTorch, TensorFlow, Hugging Face, and modern AI frameworks to solve real-world problems.

Education

Vellore Institute Of Technology-AP

September 2023 – Expected May 2027

BTech in Computer Science(Artificial Intelligence And Machine Learning) — CGPA: 7.55

Amaravati, Andhra Pradesh

Technical Skills

AI/ML & Generative AI: Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), AI Agents, Agentic AI, Natural Language Processing (NLP), Fine-Tuning, LangGraph, Prompt Engineering, Machine Learning, Deep Learning, CNN, LSTM, Transformers, Transfer Learning, Model Evaluation (Precision, Recall, F1-Score, ROC-AUC, ROUGE, BLEU), Explainable AI (XAI), Feature Engineering, Hyperparameter Tuning

Data & Infrastructure: Hugging Face, LangChain, FAISS, ChromaDB, Pinecone, Vector Databases, NumPy, Pandas, SQL, Docker, Git, GitHub, GitHub Actions, CI/CD, TensorFlow, Keras, PyTorch, Scikit-learn, OpenCV, Matplotlib

Deployment & Cloud: FastAPI, Flask, Streamlit, REST APIs, Microservices, Model Deployment, OpenAI API, Google Colab, Jupyter Notebook, AWS, Oracle Cloud Infrastructure (OCI), Linux, Bash

Core Computer Science: Python, Java, Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Operating Systems (OS), Software Engineering, Agile/Scrum, System Design, Problem Solving

Projects

Personal AI Chat Application | [Live Demo](#)

2026

- Developed an intelligent conversational AI assistant, gaining hands-on experience in Large Language Models (LLMs), Natural Language Processing (NLP), prompt engineering, and real-time AI inference.
- Integrated Open AI GPT models, REST APIs, conversational memory, context management, and response streaming to generate accurate and context-aware responses.
- Implemented chat history management, conversation persistence, and optimized API workflows to improve scalability and user interaction.

AI-Powered Drug Discovery Platform (DTI Prediction) | [Live Demo](#)

2025

- Developed an end-to-end Drug Target Interaction (DTI) prediction platform, gaining practical experience in Deep Learning, Bio-informatics, Healthcare AI, and Explainable AI (XAI).
- Built the prediction pipeline using Python, PyTorch, Convolutional Neural Networks (CNN's), Hugging Face, Scikit-learn, NumPy, and Pandas for molecular interaction prediction.

StockAI – AI-Powered Stock Price Prediction | [Live Demo](#)

2024

- Developed an AI-powered stock market forecasting system, gaining experience in Machine Learning, Time-Series Forecasting, Financial Data Analysis, and Predictive Modeling.
- Built the prediction pipeline using Python, Scikit-learn, Linear Regression, Pandas, NumPy, and Matplotlib for historical stock price analysis and forecasting.
- Performed data preprocessing, feature engineering, model evaluation, and forecasting analysis, while designing the system for future integration of LSTM, ARIMA, and Transformer-based forecasting models.

Certifications

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional | Oracle [Certificate](#)

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Oracle [Certificate](#)

Software Engineering Job Simulation | JPMorgan Chase & Co. [Certificate](#)

GenAI-Powered Data Analytics Job Simulation | Tata Consultancy Services [Certificate](#)

Leadership / Extracurricular

Clubs

- Held many positions in clubs and chapters at university like Institution of Engineers(India), Geeks for Geeks, Photon Club: Contributed to technical workshops and coding competitions
